zutik

ZUTIK es un programa de biombos que ofrece infinitas posibilidades para la distribución de puestos de trabajo en las oficinas modernas, desde el básico cierre unipersonal a la más compleja área de trabajo. A través de distintas soluciones podremos lograr zonas de alta, media o baja privacidad, con módulos opacos o transparentes,

ZUTIK ofrece una amplia gama de soluciones para la creación de separaciones entre puestos de trabajo, de acuerdo a las nuevas exigencias de distancias de separación entre los trabajadores.

ZUTIK is a separator screen system that offers endless possibilities on workstations' distribution; from individual workstations to the most complex working area. High, medium or low privacy areas can be achieved by using different kind of solutions, such as solid or transparent modules.

ZUTIK presents a wide variety of solutions on workstations' distribution, meeting new requirements such as necessary distance between employees.
